Webstack - Portfolio Project - Pitch

Group project   Portfolio project   Presentation

👤 By: Holberton Staff

⚙ Weight: 1

👥 Project to be done in teams of 4 people (your team: Baraka Ngaira, Micah Ondiwa)

📅 Project over - took place from Feb 5, 2024 6:00 AM to Feb 16, 2024 6:00 AM

☑ Manual QA review was done by Yirga Beyene on Feb 13, 2024 10:43 PM

In a nutshell…

- **Manual QA review:** 10.0/10 mandatory
- **Altogether: 100.0%**
  - Mandatory: 100.0%
  - Optional: no optional tasks

Overall comment:
The idea is interesting, would love to see it done!

Concepts

For this project, we expect you to look at these concepts:

- Portfolio Project Idea Bank (/concepts/102160)
- Portfolio Project Idea Bank (/concepts/102161)
- Portfolio project (/concepts/548)

Last run!

Yes! the portfolio project of the Webstack specialization will be your last-major-project!

(/)

Make your choice

You will have almost 2 weeks to develop your portfolio project - during this period you will be alone or by team - to create a fully functional web application.

Be before starting any coding, you will need to research and define the project.

This project is important:

- Because it will end your pathway at ALX
- It's summarize the entire Back-end specialization
- The weight of this project is important in your overall score
- You can be as creative as you want
- And the most important: **You should be proud of it** - it will be THE project to show off during interview

Solo or by team?

Good question right?

The first question you should ask yourself is: **what I want to do?**

Front-end app? Mobile app? Back-end app? API service? e-commerce website? cloud platform for videos streaming? or better: a learning platform?

Don't be afraid to work in a team - "more resources" means bigger project - but also more soft-skills.

Working solo is also fine - just don't think too big or find quick-win to achieve your project.

No idea?

Be creative doesn't mean "create a web application that will make the world a better place" - no - it means: do what you really want: it can be applying concept your learn during the curriculum - it can be exploring a new technology (Go, Rails, etc.) - or make a clone of an existing platform (I was not joking about the learning platform or video streaming…)

Try to solve a problem or learn!

Also, a web application doesn't only mean "Website", it can also be just an API.

Steps of this portfolio project

To end the curriculum, the portfolio project is split in 3 parts:

- The pitch (this project)
- The development

Manual QA Review

Review and approval for your portfolio project must be done by a peer.

- **The team will record a pitch and share the link to the recording in the below task 0**

Tasks

0. Pitch me your idea!

`mandatory`

> Score: 100.0% (*Checks completed: 100.0%*)

As mentioned in the beginning of this project, you have some questions to ask yourself:

- 🙍 Solo or team 🙍🙍🙍 🙍?
- What do I want to build?
- How do I want to build it?
- Is it possible to build it in less than 2 weeks?
- Do I like what I'm doing?

When you know these answers, you will have to prepare a pitch:

- Max 10min of pitch (please repeat to not go over)
- Google slide presentation with:
  - Name of the project
  - List of team members
  - Description of the project
  - Learning objectives
  - Technologies used
  - Third services used if applicable
  - Challenges already identified
  - Schedule of work (by using Trello (/rltoken/T8mJBmiyDQV3pUBGRAHPkA) or Kanban board (/rltoken/w_T3skcYROD3tCTBMbIEvg) or other) - don't forget that you have less then 4 weeks (27 days exactly)
  - Mock-ups if applicable

- *(/)*   • Video Recording of one or more team members presenting the pitch (using the Google Slide presentation)

Please post your slides and the recording to your web-stack portfolio pitch here.

Let's do it! 💪

Note:

If you are multiple people in your team, decide who is going to do the review.

Go to slack channel #cohort_X_review (your cohort) and look for "Looking for review for webstack portfolio pitch" that has not been replied to. Once you reply to this message you will become each others reviewers. Start a DM with one another. Share the corection link in that DM and review each other.

In case you have not found "Looking for review for webstack portfolio pitch" - then start a new thread with "Looking for review for webstack portfolio pitch" and await a new team to find you.

Happy reviewing!
